

1. Cut out the two squares along the dashed lines

2. Place the printed side face down. Fold the paper in half, crease and unfold. Fold each side to meet the crease in the middle.

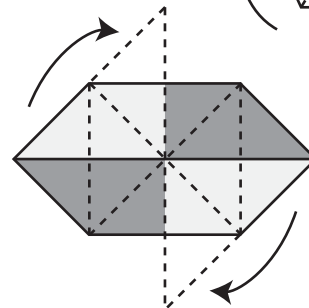

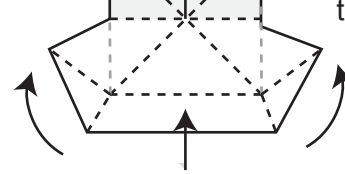

3. Bringing top down, fold in half, crease and unfold. Then fold top and bottom edges to meet the centre, crease and unfold. Make a diagonal crease to the right, unfold, then to the left, unfold.

4. Steps 4 and 5 are tricky, so read carefully; Pull the top corners open, down and out, folding along inside diagonal creases.

5. Press top edge to the centre. Press flat as shown. Repeat steps 4 and 5 at the bottom.

6. Take the left point of the top half and lift it so it points straight up and flatten. Then take the right point of the bottom half and pull it so it points straight down and flatten. Finish by making a smaller pinwheel using cutout 2. Secure them to a dowel or a pencil using a drawing pin in the centre of both.
